

FASTLIFT LEVER BLOCKS - MK II

These units are of lightweight but robust construction, manufactured in accordance with ISO 9002 certified quality system standards. They comply with EC Council Directive 89/37/EC Machinery, ASME B30, AS1418.2.

SPECIAL FEATURES:

- Extra-thick asbestos-free friction plates.
- Double pawl braking system.
- Lipped hooks, providing extra safety.
- Time-saving rapid free-wheeling system.
- Unique holding system, ensuring that chain cannot free-wheel under load in the event of neutral being accidentally engaged.

SPECIFICATIONS

Model	Capacity (ton)	Load chain falls	Levering effort (kg)	Drawn-up height (mm)	Weight c/w 3M pull (kg)
LHA075	0,75	1	14	325	8
LHA150	1,5	1	22	380	13
LHA300	3,0	1	32	480	22
